

PXG 0311 IRONS BY GENERATION

PXG has sold its 0311 irons in three heads across six generations since 2020. The looks change every time; the numbers mostly don't. Here's what changed, what didn't, and which irons can fill a gap in your set.

Specs from our iron catalogue, checked September 29, 2026. Each set's page names its source.

THE SHORT ANSWER

The P has had the same lofts, lies and lengths from GEN4 to GEN8. A 7-iron is 30° in all five. **The XP has been unchanged from GEN5 to GEN8** (27° 7-iron), and **every T we've catalogued (GEN3, GEN5 and GEN8) shares one table.** GEN6 and GEN7 had no T at all. The exception is GEN3: its P and XP lofts are 1° weaker on every club (31° and 28° 7-irons).

That matters when you're missing one iron. If your set is a GEN5 P, a used GEN4, GEN6 or GEN7 P iron, or a new GEN8, matches it on loft, lie and length. That's five generations of used clubs to choose from instead of one.

7-IRON LOFT BY GENERATION

Select a loft to see that set's full specs.

7-IRON LOFT	GEN3 2020	GEN4 2021	GEN5 2022	GEN6 2023	GEN7 2024	GEN8 2026
0311 P	31°	30°	30°	30°	30°	30°
0311 XP	28°	—	27°	27°	27°	27°
0311 T	32°	—	32°	—	—	32°

— means PXG made no such head, or we haven't catalogued it yet (see below).

THE THREE HEADS

0311 P is PXG's players-distance iron. **0311 XP** is the game-improvement version, with lofts about 3° stronger than the P and every club half an inch longer. **0311 T** is the players head, with lofts about 2° weaker than the P. They are different heads, not different finishes, so an XP iron will not match a P set.

WHICH IRONS FIT YOUR SET

These sets match yours on loft, lie and length on every club both make. The head design still differs between generations, so a mixed set will look mixed at address.

YOUR SET	SAME LOFT, LIE AND LENGTH ON EVERY CLUB
0311 P GEN3	None catalogued
0311 P GEN4	GEN5, GEN6, GEN7, GEN8
0311 P GEN5	GEN4, GEN6, GEN7, GEN8
0311 P GEN6	GEN4, GEN5, GEN7, GEN8
0311 P GEN7	GEN4, GEN5, GEN6, GEN8
0311 P GEN8	GEN4, GEN5, GEN6, GEN7
0311 XP GEN3	Black Ops

YOUR SET	SAME LOFT, LIE AND LENGTH ON EVERY CLUB
0311 XP GEN5	GEN6, GEN7, GEN8
0311 XP GEN6	GEN5, GEN7, GEN8
0311 XP GEN7	GEN5, GEN6, GEN8
0311 XP GEN8	GEN5, GEN6, GEN7
0311 T GEN3	GEN5, 0317 T, GEN8
0311 T GEN5	GEN3, 0317 T, GEN8
0311 T GEN8	GEN3, GEN5, 0317 T

Missing one iron? [Complete my set](#) shows which clubs fill the gap, club by club.

TELLING GENERATIONS APART

PXG stamps the head and generation on the hosel: "0311 P GEN6", "0311 XP GEN8". Check it in the listing photos before you buy, and don't rely on the description alone. We have seen a PXG product description for an XP iron that describes the P. PXG labels its wedges W, G, S and L (pitching, gap, sand and lob).

Finish names help too: GEN6 was sold in Double Chrome and Double Black, and GEN8 in Chrome and Xtreme Dark.

BUYING A SINGLE PXG IRON

PXG sells its current irons new one at a time, built to order in your choice of shaft and flex. Used single irons are cheaper but come in whatever specs the last owner chose, so check the shaft, flex and length against your set. See [how to identify your iron set](#) and [shaft flex explained](#).

WHAT WE HAVEN'T CATALOGUED

We leave a set out rather than guess. The XP GEN4 is missing because sources disagree on its lofts (27° or 28° 7-iron). The T GEN4 is missing because we haven't found a complete spec table. GEN1 and GEN2 aren't covered yet. If you have a PXG spec sheet for any of them, [send it to us](mailto:hello@usedclubfinder.com) (hello@usedclubfinder.com).

PXG's drivers are on the [drivers page](#).

Every set's full specs, club by club: usedclubfinder.com/irons. Each set's page lists today's used irons from major golf stores. This guide: usedclubfinder.com/pxg-0311-irons-by-generation
