

TAYLORMADE P790, P770 AND P7MC

TaylorMade's P irons run from the hollow-body P790 to the compact P770 and the forged P7MC. Here's how the generations compare, and which irons fit together.

Specs from our iron catalogue, checked between September 24 and October 12, 2026. Each set's page names its source.

THE SHORT ANSWER

Every P790 from 2019 to 2023 is identical on paper: same loft, lie and length on every club (a 30.5° 7-iron). **The first P790 (2017) has the same lofts and lies, but every club is listed 0.25 in shorter.** The 2025 P790 kept the 2019 to 2023 lies and lengths but strengthened the lofts by 0.5° to 1° on every club except the 6-iron (a 30° 7-iron), so only its 6-iron matches the older sets exactly.

The P770 changed only its 9-iron between 2020 and 2023 (41.5° to 41°). **The 2024 P770 kept the 5-iron to the 9-iron** and strengthened the 3-iron, 4-iron, PW and AW by 0.5° to 1°. The P770's 7-iron is 33° in every generation, 2.5° weaker than the 2017 to 2023 P790's (3° weaker than the 2025 P790's), and the P7MC's is 34°. Lies and lengths are the same across all three models, apart from the 2017 P790's shorter lengths.

WHICH IRONS FIT YOUR SET

"Identical" sets match yours on every club both make, so a single iron from one fills a gap in the other. "Same lofts" sets will fill the gap at the right loft, but check the lie or length difference with a fitter first. Either way, the head looks different from the rest of your bag.

CHECK THE YEAR BEFORE YOU BUY

TaylorMade reuses the P790 and P770 names across generations. Among the 2019 to 2023 P790s that doesn't matter for specs, but a 2020 P770 9-iron is half a degree weaker than a 2023 one, and a 2024 P770 PW is 1° stronger than an older one (45° against 46°). A 2017 P790 is a loft and lie match for a 2019 to 2023 set, 0.25 in shorter. The 2025 P790 has a 30° 7-iron and stronger lofts throughout, so check for "2025" in the listing: an older P790 iron is a loft match for a 2025 set only at the 6-iron.

WHAT WE HAVEN'T CATALOGUED

TaylorMade's blade and cavity back have their own pages: the [P7MB \(2023\)](#) and the [P7CB \(2024\)](#). Not catalogued yet: the P7MC and P7MB before the 2023 versions, and the 2017 P790's AW (sold in the US, but we found no specs for it). If you have a TaylorMade spec sheet for any of them, [send it to us](#) (hello@usedclubfinder.com).
