

TITLEIST T100 AND T150 BY GENERATION

Titleist has sold four generations of T100 under one name since 2019, which makes buying a single used T100 iron tricky. Here's how they differ, and where the T150 fits.

Specs from our iron catalogue, checked between September 24 and 29, 2026. Each set's page names its source.

THE SHORT ANSWER

The T100 kept the same lofts from 2019 to 2023 (a 34° 7-iron), and **the 2021 and 2023 T100s are identical on paper**. By Titleist's figures, the 2019 T100 differs only in its 3- and 4-iron lies. **The 2025 T100 is 1° stronger on every club**.

The T150 is 2° stronger than the older T100s (a 32° 7-iron) and 1° stronger than the 2025 T100. The 2023 and 2025 T150s are identical. Apart from the 2019 T100's 3- and 4-iron lies, lies and lengths are the same across every set here.

WHAT CHANGED, GENERATION TO GENERATION

GENERATION	WHAT CHANGED
T100 (2019) to T100 (2021)	Lies changed on the 3-iron (60° to 61°) and 4-iron (61° to 61.5°).
T100 (2021) to T100 (2023)	No change to published loft, lie or length.
T100 (2023) to T100 (2025)	Every club 1° stronger.
T150 (2023) to T150 (2025)	No change to published loft, lie or length.

WHICH IRONS FIT YOUR SET

"Identical" sets match yours on every club both make, so a single iron from one fills a gap in the other. "Same lofts" sets will fill the gap at the right loft, but check the lie or length difference with a fitter first. Either way, the head looks different from the rest of your bag.

CHECK THE YEAR BEFORE YOU BUY

Titleist reuses the T100 name for every generation, and the heads look alike. Check the year on the listing: a 2025 T100 iron in a 2021 set will be a degree strong. Titleist labels its gap wedge W (50° on older T100s, 49° on the 2025 T100 and 48° on the T150).

WHAT WE HAVEN'T CATALOGUED

The T100•S, 2° stronger than the T100 of its era on every club, has its own pages: [2019](#) and [2021](#). The 2017 AP2 (718 AP2) isn't catalogued yet. If you have a Titleist spec sheet for it, [send it to us](#) (hello@usedclubfinder.com).
